

**VOLUNTARY REMEDIATION PROGRAM  
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

**PROJECT SUMMARY**

<b>Site Name:</b>	Preferred Technical Group, Mitchell
<b>Applicant's Name:</b>	Preferred Technical Group, Mitchell
<b>Site Location:</b>	1201 Orchard Street Mitchell Lawrence County
<b>VRP Site Number:</b>	6960105
<b>Project Manager:</b>	Damon Ridley
<b>Date Application Received:</b>	January, 1996
<b>Date Project Completed:</b>	May, 1998
<b>Project Duration:</b>	2 years, 4 months
<b>Contaminant Group(s):</b>	Volatile Organic Compounds (VOCs)
<b>Media Cleaned Up:</b>	Surface Soil, Subsurface Soil, Groundwater
<b>Cleanup Goals Achieved:</b>	Tier II Nonresidential
<b>Deed/Land Use Restrictions:</b>	Nonresidential

**Project Description:** The site manufactures hoses and fittings. Operations include the use of robotic equipment. Previous owners would maintain the equipment using trichloroethylene (TCE, which has since been changed to an alternative non-chlorinated solvent degreasing system. After excavation of the contaminated soil, confirmation sampling determined that Tier II nonresidential cleanup levels were attained.
